NOTES

This quote is for replacing a single damaged or missing street sign in Tonto Hills with a new sign to match the sample:

*Each street name will require a template. This template is reusable for each street name it represents and will belong to THIA once purchased.

* Each template will be made from MDF and 1/8" Baltic Birch plywood or similar material.

* Each street sign will be made from **TruWood** or similar composite wood, OR redwood if locally available. **See note below on sizes.** The TruWood composite material itself has a 30 year limited warranty, and is manufactured to meet or exceed the specifications set forth in ANSI-CPSA 135.6: <https://law.resource.org/pub/us/cfr/ibr/001/aha.a135.6.1998.pdf>

Notes:

*TruWood Composite is 3-9/16" wide x appx. 13/16" thick
 *Redwood material is 3-3/8" x appx. 9/16" thick
 **If Redwood is used, Lettering will be smaller due to the narrower width of the material.
 * Each street sign will be painted with Exterior Acrylic Latex paint or similar for both the background brown and White Lettering
 *Reflective Glass beads are included for reflective letters

This quote does not include any refurbishment of existing street signs
